

## MEDICAL EXAMINATIONS GUIDELINES

WORC Department reserves the right to require additional medical examinations at any time. Medical practitioners are advised to perform any tests that might be desirable depending on the disease prevalence in the respective countries.

The medical declaration cover letter needs to be submitted to WORC every year and upon the renewal of immigration applications.

The below items are to be used as guidance for medical practitioners who are performing medical examinations for persons making an application through Workforce Opportunities & Residency Cayman. The medical examination is not limited to the items below, however they are the minimum required to complete the Medical Declaration Cover Letter.

Note: These guidance notes are not to be attached to any application to WORC, but are to be used at the medical practitioner's office.

Applicant's Questionnaire:					
Have you ever had or currently have  (a) Nervous or mental trouble  (b) Fits or convulsions?  (c) Heart trouble or raised blood pressure?  (d) Lung tuberculosis, Asthma or hay fever?
